# Decision consequences and spoilers

If a decision is not shown here, it isn't of huge importance or it's straightforward and you can pick based on personal preferences.

## Isabella

Part personal preference, part hidden option

Dating Isabella: you start dating. You skip on extra Isabella scenes after attending the party

Rejecting Isabella: just try and see what happens

Accepting after rejecting: gives extra Isabella scenes after you attend the party. Allows you to convince Isabella to your just cause and triggers an extra sex scene

Rejecting again: you drop Isabella's route

## **Sparing or killing Bernadette**

Mostly a personal choice, spare if you like a murderous goth. Kill if you can't stand her.

Consequences of sparing: a few extra events and sex scenes with Bernadette. One extra hentai event with Willow. Bernadette's parents die. Willow gets attacked.

Consequences of killing: you don't see the goth girl again. Minor dialogue changes and no extra events.

## **Seduction's circle's party**

Second most important choice in the game

Drugging the guys: harem route. You get A LOT more scenes during the party and get to attend solo. Some drama in later stages of the game as different characters pursue the truth, but you get many extra events. Extra hentai event with a girl – Rhea, outside the party

Simply attending: if for some reason you don't mind sharing and don't like drugging people. Far less scenes than drugging (no 'one on one' except for Yua). No extra events or drama

Not attending at all: no extra events and you skip on the party. Choice for people who absolutely despise the idea of an orgy and don't wanna drug people

Stopping the party – not available initially. This option presents itself later in the game no matter your choice now. Simply pick any of the three above instead

In terms of extra content, the order is: drugging the guys, stopping the party, attending, not attending.

## Finding Klaus

Most important choice in the game

Consequences of finding: you take a second trip to China and get to hentai Willow & Lena. The headmaster dies. The inquisition arrives in the school. You return the eggs for a reward. More events mid game, but a few less at the end of the game.

Consequences of not finding: gym orgy event with Alwyth, Yua, Matilda, Narita and Hanako. No second trip to China and no sex with Willow and Lena. Option to use the theory circle doll. Option to hentai Iroha. The headmaster lives. You get to choose what to do with the eggs. Less events mid game, but a few more in the later stages.

## Stopping the party

An important decision

Consequences of stopping the party: a few extra events. Solo orgy (reverse gangbang) with the seduction circle girls at the end of the game. Stopping the party from taking place. Suggesting this to Fabiana does not lock in this route yet and you have an option to back out later.

Consequences of not stopping: depends on your previous party choice.

## Eileen scheme

An important decision

Helping Eileen in person: extra events where you go against Klaus. Extra repeat scene.

Helping Eileen with information only: no extra event but you don't lock yourself out of her further scheme

Refusing to help: no extra events. You don't work against Klaus. Option to kill Klaus at the end of the game. Eileen finds out about your harem.

## Eggs choice

Only available if you didn't help find Klaus

Eat – you gain stat bonuses. Good for combat. Altered dialogue

Smash them – altered dialogue

Return them – altered dialogue

## **Returning the eggs**

Only available if you helped find Klaus

Money: Asara stays happy. You get a lot of cash

Cure for lamashtu's infertility: Asara is upset and doesn't talk to you for a few events. You can knock up the lamashtu. Two extra small events

Skillpoints: Asara is upset. You get extra skillpoints

Nothing: Asara is upset

## **Murdering Klaus**

Very important choice

Helping Eileen with murder: extra events, extra sex scene with Eileen. Ironically, you do NOT get to kill Klaus personally. Only Eileen and Willow can do it. Eileen never finds out about your harem.

Not helping Eileen: No extra events with Eileen. Eileen eventually finds out about your harem. You get an option to kill Klaus at the end of the game.

## **Borrowing the doll**

Only available if you didn't help find Klaus

Tell Asara about the doll: extra events. Extra hentai event with Christina, Mia, Asara, the doll, Iroha

Don't tell Asara: No extra events

## **Greek oracle**

Important if you helped Eileen with the murder plans

Seeing the oracle: Klaus gets a prophecy. If you helped Eileen with the murder plans, he is killed by Willow instead of Eileen

Not seeing the oracle: you skip an extra event.
